DIARY NOTES

11 February 1960

25X1A

1. I approved of Ed Saunders taking annual leave during the period 19 - 23 February 1960.

2. Doctor Tietjen talked to me about a trip to Europe at which time he proposed to have the doctors in the European area assemble for a general discussion of evacuation and other medical problems. I approved of this and he will probably leave in early April.

3. In connection with travel of headquarters medical people generally I apprised Doctor Tietjen of my recent conversations with General Cabell at which time it was agreed that, as a matter of policy, we should have a doctor from headquarters visit every field station about every eighteen months.

4. I talked with Ed Saunders about a replacement for [REDACTED] and we have tentatively decided on [REDACTED]

25X1A9a

5. I also talked with Ed Saunders at some length about the possibility of having [REDACTED] when Fred goes to the WE Division this spring. Ed can make arrangements and will offer no objection to this if this is what we finally decide to do.
